

Supporting the Implementation of Augmentative & Alternative Communication (AAC) within the Classroom

Audience

Teachers, Paraprofessionals
and Itinerants

Facilitated by

Katie Butzu, MSOT, OTRL,
Assistive Technology Consultant

As the use of high tech Assistive and Augmentative Communication continues to grow it is important to understand how to effectively support the learning communicator. This training is designed for teachers, paraprofessionals and itinerants to review the basics of the AAC software systems, approach, basic implementation strategies and tools/resources to incorporate the use of the device into the classroom setting.

*If you are an educator in a district or ISD outside of BAISD or IRESA, additional fees may apply.
