This is a 4-part learning series. Join us for a practical and nofail book study using This is Disciplinary Literacy by ReLeah Lent. We will explore how to support students in thinking, processing, and communicating like subject area experts; whether in science, math, social studies, or the arts.

Each session will include time for reflection, discussion, and simple strategies you can immediately apply in your classroom. Whether you're new to this work or looking to deepen your understanding, this series is designed to meet you where you are and help you grow.

Lunch will be included for the January 21st full day session only.
