DnA
by Renaissance

(formerly Illuminate)

DnA OVERVIEW/REFRESHER:

This session can be customized as an overview for new staff or a refresher. It will give you an overview of what is available in Illuminate and how to navigate. We will review the Student Profile, show you how to create Tiles, discover Prebuilt Reports and much more.

DnA ASSESSMENTS: Flexible and Skills

In this session we will show you how to take an existing assessment (pdf) and get it into DnA. Flexible assessments can be given online or paper/pencil. We will also cover Skills assessments where you test your students in a one-on-one format.

DnA ASSESSMENTS: New Item Bank & Prebuilt Assessments

In this session we will cover Prebuilt Assessments that have been created by assessment experts and are vetted for reliability. These are high quality, rigorous assessments that are matched up to standards, have a pacing guide and are ready to use (available for ELA and Math). It will also cover the New Item Bank where you can create your own items (any subject) or search an item bank for items to add to your assessment.

IRIP'S WITH DnA:

This workshop is customized to your district's process for identifying and creating the Individual Reading Plan for K-3 students who have a reading deficiency.

Skyward Overview/Refresher:

This session can be customized as a refresher for office staff or building administrators. It will give you an overview of the menus available in Skyward and how to navigate them. We will review the Student Profile, show you how to create favorites and bookmarks for quick printing of schedules and discipline. You will see how to use the classroom profile to get a quick overview of a course, learn how to schedule tasks along with many other tips and tricks.

AUDIENCE: This session can be customized for almost any group of Skyward users, office staff or administrators.

Skyward for Teachers:

In this session participants will learn how to organize their home page, learn about widgets, communicate with parents and students via message center and pick up some gradebook tips.

Skyward - Attendance Letters:

In this session participants will learn how to set up Attendance Thresholds, create custom Attendance Letters and Schedule Letters that will automatically print.

Skyward Data Mining:

In this session, participants will use the Data Mining module in skyward for the creation of custom reports. They will understand how to create a Data Mining report, add fields to it, set up ranges for it and how to sort it. They will also understand how to use advanced data mining features like Processing Lists, Labels and Mail Merges.

*If you are an educator in a district or ISD outside of BAISD or IRESA, additional fees may apply.
