

Secondary Essential Practices

Audience

Secondary content area departments / teachers (mathematics, science, social studies, ELA, and others)

Implementing the Disciplinary Literacy Essentials across All Content Areas

As students continue to develop their literacy skills throughout middle and high school, literacy instruction must also help them meet increasingly complex subject area demands such as critical thinking, problem solving, and communication skills. Exploring and implementing the Disciplinary Literacy Essentials supports students as they think and communicate in ways that are valued in mathematics, science, social studies, the English language arts, and other secondary content areas.

Let's collaborate on the implementation of these Essential Instructional Practices in your content area during department meetings and school PD days. Contact Adrienne Cole to set up a date and time that works best for your department.

When

By appointment

Location

Individual school buildings as requested

Cost

Free

**If you are an educator in a*

district or ISD outside of BAISD or IRESA, additional fees may apply.
